7.7.49. Funnel stolen. Funnel loaned 14.9.49 to be maintained until new enclosure is made.
 Inspected 17.1.50. Mr. Illing. Instruments in garden between house and river. After removal of garden railings in 1901 open to interference. From 1901 instruments in tiny walled enclosure 8.9.51 in diameter. Gauge 16" from railings and close to screen and still open to interference. Rainfall since 1901 likely to be deficient. Gauge, except funnel, in poor condition, glass jar but no inner container. Old 5 inch gauge on roof in last stages of decay has been used to give readings when 5 inch gauge is out of action. New gauge in enclosure needed.
 15.0. Unable to carry out recommendations unless B. Council help, but gauge needed at 1 yr.
 1949 Not painted low.
